Objective of the Activity

“Climbing to the top demands strength, whether it is the top of Mount Everest or to the top of your career”. Career is an individual metaphorical journey through learning, work and other

aspects of life. Career Counselling workshop is a face-to-face counselling wherein the facilitators reach out to the students and inspire them to aspire for greater heights in life thereby making them dream big. In today's era students are surrounded by the different kind of career option according to their interest, guiding them about the choices which lies in their career path will help them to make their decision. It plays an important role in the lives of all individual as it helps in setting future goals and choosing career. This session of Career Counselling helped the students to understand their own strengths and weakness with regard to their present course and profession and let them know what career they would be suited for.

Learning Outcome- This seminar gave the outlook of the career opportunities available for B.Sc. students and their benefits in near future.
