**THE INTERESTED STUDENTS SHOULD SUBMIT THEIR NAMES
TO MA'AM KIRAN BHAGNANI ON/BEFORE 01.08.2016**

Report

Name of the Department: Computer Science

Name of the Activity: Picnic to “Neelkanth Mahadev – Beawar”

Date: 6th August 2016

Total Number of the Students: 91

Venue: Neelkanth Mahadev, Beawar

Report : With their hearts filled with anticipation and bright smiles on their faces, the students and the faculty members of the BCA department headed off to “Neelkanth Mahadev – Beawar” on 6th August 2016 at 9:00 am. After visiting every corner of the temple, we assembled for some interesting and interactive activities. The students were amazed beyond limit to see their mentors taking part in games and dancing their heart off. The students enjoyed the temple environment, and their time in the temple sparked an unfathomable satisfaction in the hearts of the students. And the aesthetic beauty and peace of Beawar, instilled vigor and thrilled the students mind. The day ended with the laughter of the girls echoing in each and every corner and filled the air with joy and elation.

Learning Outcomes

- Improved mental health
- Students decide which people and things make environment and activities safe
- Better behaviour and bonding

Name of the Department: Computer Science

Name of the Activity:One Day Workshop on “Hardware & Software Installation”

Date: 22 October 2016

Total Number of the Students: 81

Venue: Computer Science Department, Sophia Girls’ College (Autonomous), Ajmer

Resource Person: The project engineer of Indian Institute of Hardware Technology, Ajmer.

Report: The Department of Computer Science organized a One Day Workshop on “Hardware & Software Installation” on 22 October 2016 at 9:00 am in the Computer Science Department, conducted by the Engineer of Indian Institute of Hardware Technology, Ajmer. The workshop focused on the real changes required to make your software truly agile and user-friendly. The resource person threw light on the hardware components and discussed several sets of instructions, which allowed the hardware to run properly. The students were taught about the phases of software development and the key points to keep in mind while developing a software.

Learning outcomes:

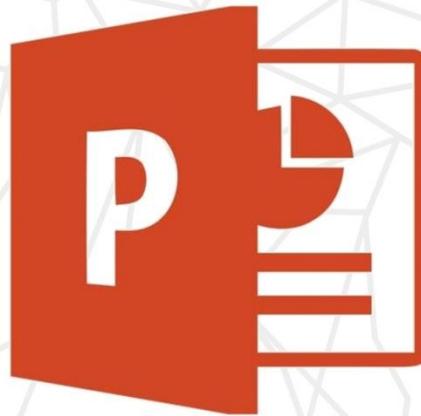

1. Identify and understand the working of key components of a computer system (hardware, software, firmware etc.)
2. Understand low-level input and output routines.
3. Introduction to computer and CPU, Stored Program concepts.
